# About Ta Ya Headquarters

Combined with 6 Business Groups

## Energy and Telecom Cable Business Group

- Responsible for the production, development, and sales of electricity and Telecom cables.
- Supervising subsidiaries such as Ta Ho, AD, United Electric Industry Co., Ltd, Ta Ya Energy Storage Technology Co., Ltd and Ta Ya Green Energy Technology Co., Ltd. .

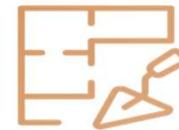

## Magnet Wires Business Group

- Responsible for the production, development, and sales of magnet wires.
- Supervising subsidiaries such as Heng Ya Electric Ltd. (Dongguan), and Ta Yi Plastic Co., Ltd..

## New Business Development, Investment and Copper Management Business Group

- Responsible for copper procurement
- Supervising TAYA Venture Capital

## Construction Business Group

- Responsible for land development
- Project managing the development and marketing of residential properties and office buildings

## General Management Office

- Responsible for cross-departmental coordination
- Rationally respond demands of stakeholders
- Ensuring sustainable growth of the TAYA Group

# Distribution map of TA YA Solar Power Station

There are

- 70 solar power plants
- Its cumulative installed capacity is 207MW

(AS of 2026/02)

## Qigu Fishing and Electricity Symbiosis Zone

---

- Its cumulative installed capacity is 120MW.
- Its goal is to achieve the benefits of "breeding-based value-added green electricity and flood storage"
- Fishery and Electricity Symbiosis is achieved by setting up green energy power generation facilities at fish farm embankments and water channels, providing shades for the fish farm to keep the water cool in summertime, for delivering electricity while keeping aquaculture production at the time; tarpaulin shedding can be provided on top of the facility in the wintertime to withstand cold weathers. The Qi-Gu Fishery and Electricity Symbiosis Project, which combines fishery with a green power generation system while functioning as flood retention at the same time, is creating a triple-win situation for the locality.

## Ta Ya Solar Power

---

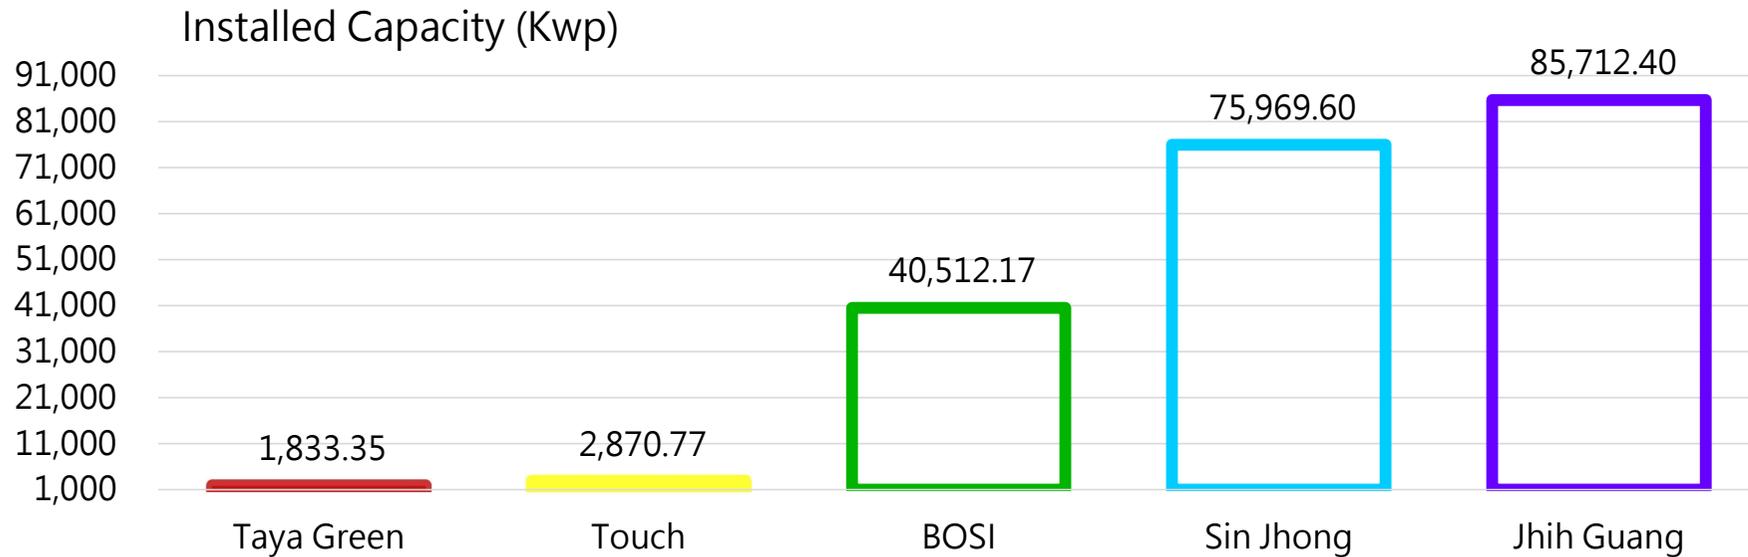

- To establish a 2.89MW power plant on the factory roof at the Guanmiao Headquarters.
- Cooperation with Taiwan Sugar Company to build a facility spanning tens of thousands of square meters with a capacity of 6.94MW on the roof.
- Accomplished category change of a 71-hectare land at Xue-Jia District, Taiwan, for setting up a 76MW solar power plant, the very first in Taiwan for a private land exceeding 30 hectares to have succeeded in a category change.
- An independent 600kWh, 200kW “Da-Ya Power Storage Micro Grid” System is established at Guanmiao Plant Area, which provides comprehensive power dispatch services that combine power storage, electricity installation, environment control and grid information into an integral system

Where the sun shines, Ta Ya is there.
